

Spot on Lighting LED Retrofit Kit for Nulux Swidlux 46

In the early 1990's, the first Nulux Swidlux wallwasher was designed for the elevator foyer of a Fifth Avenue residence as a remodel fixture intended to gently and uniformly wash the walls with light and have very low glare.

The LED retrofit kit lampholder assembly and power supply are swapped with the existing parts and connected to the same wiring and dimmers.

LED Lampholder Assembly

Power Supply
